REMARKS

Claims 1-14 are pending in this application. Reconsideration of the application is respectfully requested in view of the following remarks.

The Examiner rejected claims 1, 4-6, 10 and 12-14 under 35 U.S.C. §103(a) as being unpatentable over Matthews (5,600,368). Matthews teaches a method for viewer control of multiple camera viewpoints in a sports program. Matthews also discloses a directional keypad on a remote control handset which the viewer uses for switching between the different camera viewpoints.
